**Comments:**

Looks like database field has been missed out for this specific page/car.

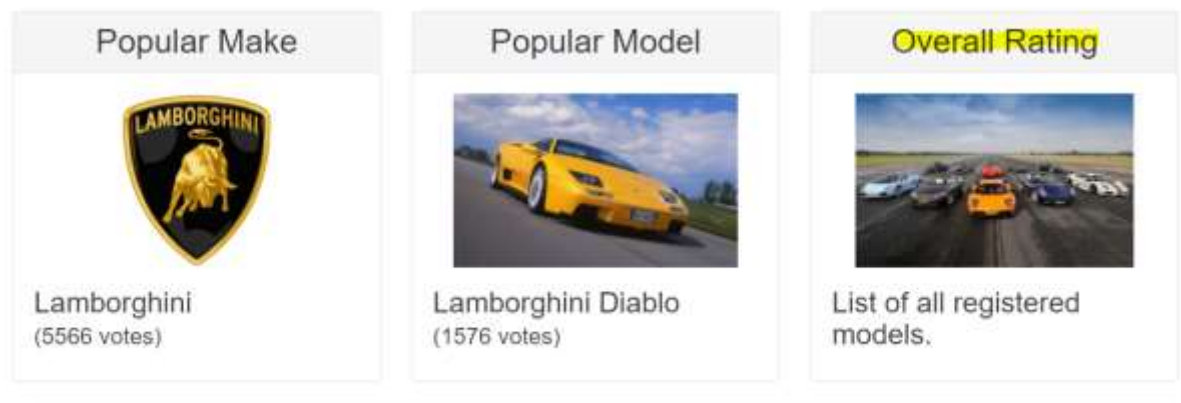

#### 4) Application throws backend exception which broke the page functionality

##### Description:

When accessing some of the car pages, an exception is thrown from the application side which resulted in breaking the page functionality like all the links are not working, page back button doesn't work.

##### Steps to reproduce:

- 1) Open the browser
- 2) Browse the URL: <https://buggy.justtestit.org>
- 3) Click on Overall Rating

- 4) You will end up with URL <https://buggy.justtestit.org/model/c4u1mqnarscc72is00e0%7Cc4u1mqnarscc72is00kg>
- 5) From the page navigation go to page#4 when you can find the car named "Lancia"

- 6) Click on Lancia link
- 7) You can see more cars, now click on Stratos as shown below.

Lancia

**Lancia** is an Italian automobile manufacturer founded in 1906 by Vincenzo Lancia as Lancia & C. It became part of the Fiat Group in 1969; the current company, Lancia Automobiles S.p.A., was established in 2007.

The company has a strong rally heritage and is noted for using letters of the Greek alphabet for its model names. Lancia vehicles are no longer sold outside of Italy, and comprise only the Ypsilon supermini range, as Fiat CEO Sergio Marchionne foreshadowed in January 2014.

- 9) Also if you click on links like “**Buggy Rating**” at top right it will change the URL to <https://buggy.justtestit.org/> but the page remains same.

- 10) Also, when you inspect the page you can see lot of exceptions which is root cause for this page.

### Expected Result:

If data is available for this car, it should display. Alternatively, it shouldn't be broken down the other links if data is not available.

### Actual Result:

No data is displayed for this car and also exceptions are thrown which need to be fixed.

### Test Case#

Test4

### Priority: High

**Comments:**

While inspecting can see that some errors which highlights that some routes are not available for browser in terms of new URL

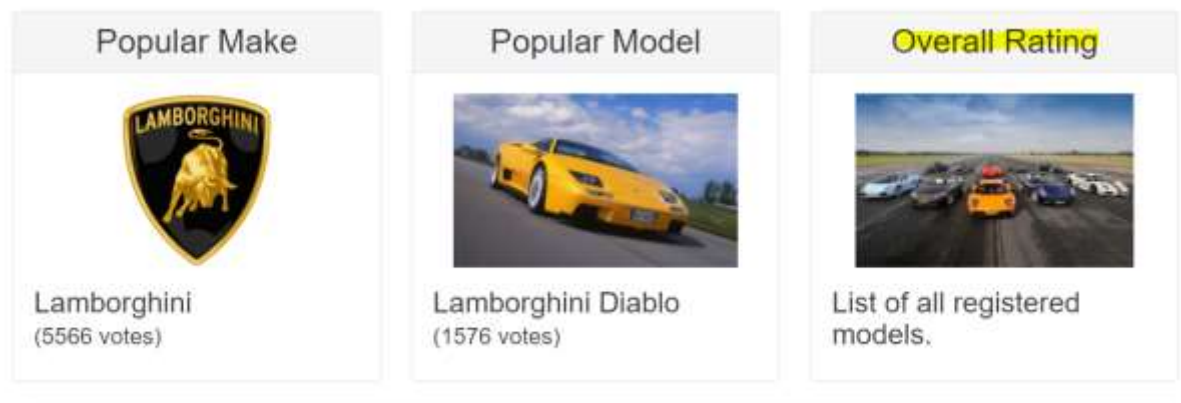

## 5) Paging exceeding more than max page number

### Description:

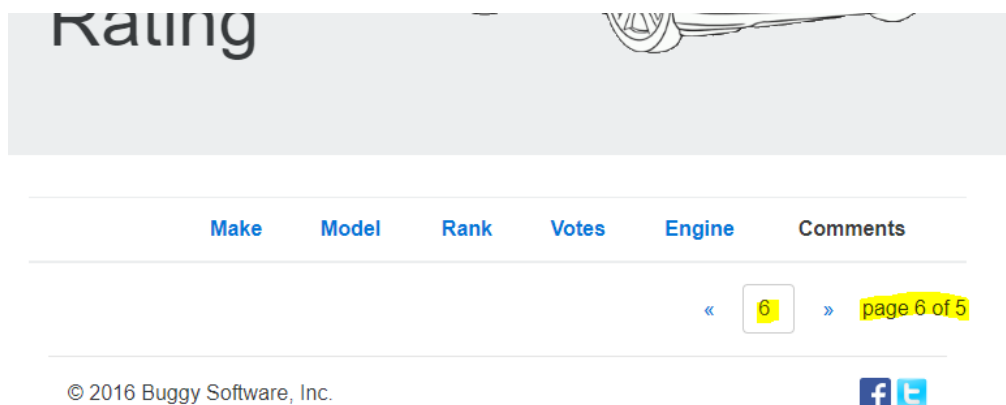

When you try to access the next page, found that if the max page required to display the data is 5 then you can go beyond 5 pages.

### Steps to reproduce:

- 1) Open the browser
- 2) Browse the URL: <https://buggy.justtestit.org>
- 3) Click on Overall Rating

- 4) You will end up with URL <https://buggy.justtestit.org/model/c4u1mqnarscc72is00e0%7Cc4u1mqnarscc72is00kg>
- 5) From the page navigation click on next..... until it reaches page#6

**Expected Result:**

Paging should not exceed the max page and also if data is not available.

**Actual Result:**

You can exceed the max page# where there is no data available.

**Test Case#**

Test5

**Priority: High****Comments:**

Looks like some checks are missing which allow paging to be exceeding the max page#. Also please fix when you can update the textbox to access bigger number like 66 or 100 which is overhead from application side.

**Also found other 2 issues will just give brief description on it.**

**6) Sorting doesn't work properly when sorting based on Rank as it sorts like 1,10,11.....**
